

STAINLESS STEEL LIQUID FOOD CONTAINERS

for Oil, Wine, Alcoholic beverage, Honey

METALBOX COMPACT 280

STAINLESS STEEL CONTAINERS WITH AIRTIGHT SAFETY LID Φ 180 - DIAMETER 280mm

type	capacity (lt)	diameter (mm)	height (mm)
28B180-15	15	280	320
28B180-20	20	280	390
28B180-25	25	280	465

A stainless-steel container that ensures transport and storage of liquid food

Main features:

- Full sealing
- 100% safety in the liquid food
- Easily open and with safety even after having stayed sealed for a long time
- Capacity up to 125 liters
- Special handles on each side
- The ribbed bottom and body guarantee the maximum security and durability

METALBOX COMPACT 380

STAINLESS STEEL CONTAINERS WITH AIRTIGHT SAFETY LID Φ 180 - DIAMETER 380mm

type	capacity (lt)	diameter (mm)	height (mm)
38B180-20	20	375	300
38B180-30	30	375	395
38B180-40	40	375	475
38B180-50	50	375	585
38B180-75	75	375	780
46B180-75	75	462	590
46B180-100	100	462	730
46B180-125	125	462	830

A stainless-steel container that ensures transport and storage of liquid food

Main features:

- Full sealing
- 100% safety in the liquid food
- Easily open and with safety even after having stayed sealed for a long time
- The elastic around lid is proper for food
- Capacity up to 125 liters
- Special handles on each side
- The ribbed bottom and body offer the maximum security and durability
- Adjustable faucet adaptor, with optional use of teflon
- TIG welding method between container cone and main body.

METALBOX

STAINLESS STEEL CONTAINERS WITH SIMPLE LID & SIDE HANDLES

type	capacity (lt)	diameter (mm)	height (mm)
38A-33	33	375	340
38A-55	55	375	530
38A-75	75	375	660
46A-110	110	462	670
52A-135	135	525	670
52A-165	165	525	775
58A-220	220	585	835
58A-250	250	585	955
63A-300	300	632	960

A powerful container, able to accept pressure from any direction

Main features:

- 10% extra capacity from common containers
- Special handles with " stop " on each side, placed for extra strength
- Adjustable faucet adaptor, with optional use of teflon
- Stainless steel handle in the cap
- Specially shaping around the lid to avoid scratches
- Double sealing
- Usage of a special sealing material suitable for food, which does not come into contact with the storage product.

STARBOX

STAINLESS STEEL CONTAINERS WITH SIMPLE LID & HANDLES

type	capacity (lt)	diameter (mm)	height (mm)
38AB-30	30	375	300
38AB-50	50	375	440
38AB-75	75	375	660
46AB-100	100	462	600
46AB-125	125	462	740
52AB-150	150	525	700
58AB-200	200	585	765
58AB-250	250	585	960
63AB-300	300	632	960

A powerful container, able to accept pressure from any direction

Main features:

- Special shaping around the lid in order to avoid cut
- Adjustable faucet adaptor, with optional use of teflon
- The specially shaped ribbed bottom is positioned with the following technique:
- Double sealing
- Special sealing material suitable for food

Containers with capacity over 300lt available on request

STAINLESS STEEL LIQUID FOOD CONTAINERS

for Oil, Wine, Alcoholic beverage, Honey

METALBOX for Honey

STAINLESS STEEL CONTAINERS WITH SIMPLE LID & SIDE HANDLES

type	capacity		diameter	height
	(lt)	(kg)	(mm)	(mm)
38M-33	33	46,2	375	340
38M-55	55	77	375	530
38M-75	75	105	375	660
46M-110	110	154	462	670
52M-135	135	189	525	670
52M-165	165	231	525	775
58M-220	220	308	585	835
58M-250	250	350	585	955
63M-300	300	420	632	960

A powerful container, able to accept pressure from any direction

Main features:

10% extra capacity from common containers
Special handles with " stop " on each side, placed for extra strength
Adjustable faucet adaptor, with optional use of teflon
Stainless steel handle in the cap

The specially shaped ribbed bottom is positioned with the following technique:
Double sealing

Usage of a special sealing material suitable for food, which does not come into contact with the storage product.

With 1½" honey faucet, suitable for liquid food, designed and tested in order to provide 100% safety in sealing.

28BC180-20W		20	280	390
28BC180-25W		25	280	465

A stainless-steel container that ensures transport and storage of liquid food

Main features:

Externally painted with electrostatic paint for aesthetic reasons
Inside surface and parts in Stainless steel
Available colors: Mint (Green), Copper (Red), Bone (White)

Containers with capacity over 300lt available on request

Raw material used: EN 1.4301 and A.I.S.I (American Iron & Steel Institute).

The above principles require stainless steel, category 304, for liquid food storage and transport.

Composition of alloy:

8,5% - 10% Ni (Nickel)

15,5% - 18% Cr (Chromium)

TIG welding used to all welding points

All other materials used (airtight lid's elastic, sealing o-rings, bottom sealing elastic) are appropriate for liquid food storage.
